

# THREE SIMPLE TIPS TO RECYCLE RIGHT!

**#1 DISPLAY** the standardized labels on your bins to help everyone, everywhere to recycle *right*. Always follow the directions on the recycling bin.

**#2 WHEREVER ACCEPTED, RECYCLE ALL:**  
**clean** office paper  
**clean** flattened cardboard  
**empty** metal cans  
**empty** glass bottles and jars  
**empty** plastic bottles and jugs  
If we ALL recycle ALL of these items properly, it will change the world dramatically. Remember to check locally to find out what can be recycled in your area, and when in doubt, throw it out.

**#3 NEVER** put these items in general recycling bins:

<b>NO plastic bags</b>	<b>NO napkins or tissues</b>
<b>NO plastic wrap</b>	<b>NO coffee cups</b>
<b>NO plastic straws</b>	<b>NO paper plates</b>
<b>NO plastic utensils</b>	<b>NO styrofoam®</b>
<b>NO dishware</b>	<b>NO to-go containers</b>
<b>NO glassware</b>	<b>NO compostable plastics</b>
<b>NO soiled paper</b>	<b>NO food or liquids</b>
